CHAPARRAL SSi 210

Chaparral always scores high in J.D. Power and NMMA customer satisfaction index surveys. Close attention to details includes top-quality stainless-steel hardware, cleats and rub rails. A sporty hull that loves to run makes it fun, and it's one boat we latch onto right away at our tests. Attractive optional colors (red, blue and black) can be gelcoated in but the standard finish is glossy and nicely accented with appealing graphics.

LENGTH: 20'6" BEAM: 8'3" MAX HP: 300
